Moshe Edree, CEO of Codere Online, said, "We are very pleased with our results in the first half of the year, particularly with the acceleration in net gaming revenue growth to 41% in the second quarter. This was driven by a very strong performance in Mexico, where net gaming revenue nearly doubled that of Q2 last year, as well as Spain, where net gaming revenue grew 12% in Q2 despite the significant marketing restrictions implemented starting in May last year. In the second quarter, our customer base grew by 29% to nearly 105 thousand average monthly active customers. Almost 85 thousand customers, 47% more than in Q2 last year, made deposits with us for the first time in the period."

Moshe Edree, further stated, "Since the end of the quarter we continue working relentlessly to execute our plan and recently applied for an online gaming license in the Province of Cordoba, the second most populated in Argentina. We have also reached a significant milestone in the country by becoming a Main Sponsor of Club Atlético River Plate and the Codere logo has been placed on the front of the shirt."

Oscar Iglesias, CFO of Codere Online stated, "Our expectation that revenue growth would accelerate throughout this year has started to materialize, with the significant net gaming revenue uplift in the second quarter. We believe that we are on track to deliver our full year net gaming revenue outlook of €110 - 120 mm as we continue executing our plan during the second half of the year."

There may be additional risks that Codere Online does not presently know or that Codere Online currently believes are immaterial that could also cause actual results to differ from those contained in the forward-looking statements. Some factors that could cause actual results to differ include (i) changes in applicable laws or regulations, including online gaming, privacy, data use and data protection rules and regulations as well as consumers’ heightened expectations regarding proper safeguarding of their personal information, (ii) the impacts and ongoing uncertainties created by the COVID-19 pandemic, regulatory restrictions, changes in perceptions of the gaming industry, changes in policies and increased competition, and geopolitical events such as war, (iii) the ability to implement business plans, forecasts, and other expectations and identify and realize additional opportunities, (iv) the risk of downturns and the possibility of rapid change in the highly competitive industry in which Codere Online operates, (v) the risk that Codere Online and its current and future collaborators are unable to successfully develop and commercialize Codere Online’s services, or experience significant delays in doing so, (vi) the risk that Codere Online may never achieve or sustain profitability, (vii) the risk that Codere Online will need to raise additional capital to execute its business plan, which may not be available on acceptable terms or at all, (viii) the risk that Codere Online experiences difficulties in managing its growth and expanding operations, (ix) the risk that third-

Financial Information and Non-GAAP Financial Measures

Codere Online's financial statements are prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS"), which can differ in certain significant respects from generally accepted accounting principles in the United States of America ("U.S. GAAP").

This document includes certain financial measures not presented in accordance with U.S. GAAP or IFRS ("non-GAAP"), such as, without limitation, net gaming revenue. These non-GAAP financial measures are not measures of financial performance in accordance with U.S. GAAP or IFRS and may exclude items that are significant in understanding and assessing Codere Online's financial results. Therefore, these measures should not be considered in isolation or as an alternative to revenue, net income, cash flows from operations or other measures of profitability, liquidity or performance under U.S. GAAP or IFRS. You should be aware that Codere Online's presentation of these measures may not be comparable to similarly-titled measures used by other companies. In addition, the audit of Codere Online's financial statements in accordance with PCAOB standards, may impact how Codere Online currently calculates its non-GAAP financial measures, and we cannot assure you that there would not be differences, and such differences could be material.

Codere Online believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends in comparing Codere Online's financial measures with other similar companies, many of which present similar non-GAAP financial measures to investors. These non-GAAP financial measures are subject to inherent limitations as they reflect the exercise of judgments by management about which expense and income are excluded or included in determining these non-GAAP financial measures. Reconciliations of non-GAAP financial measures to their most directly comparable measure under IFRS are included herein.

This document may include certain projections of non-GAAP financial measures. Due to the high variability and difficulty in making accurate forecasts and projections of some of the information excluded from these projected

measures, together with some of the excluded information not being ascertainable or accessible, Codere Online is unable to quantify certain amounts that would be required to be included in the most directly comparable U.S. GAAP or IFRS financial measures without unreasonable effort. Consequently, no disclosure of estimated comparable U.S. GAAP or IFRS measures is included and no reconciliation of the forward-looking non-GAAP financial measures is included.
